

Dylan Astrup *for SGA Treasurer*

SGA finances should not be hidden or covered up, and serving as your Treasurer, it would be my mission to make sure that all students are informed and involved in SGA financial decisions. Now, who am I? Hi, my name is Dylan Astrup, I am currently a Sophomore studying Mechanical Engineering with a focus in Energy, and I would like to be your next SGA Treasurer! I was born and raised in Orange County, CA and in my free time I enjoy cooking, golfing, hiking, and flying planes. I am currently an **Executive Board Member on the SGA Student Treasury** and I have had previous experience as a student council Treasurer. I attended all the Budget Committee meetings this school year where I made a large impact by helping fund our campus' clubs while also learning about the SGA budget. These experiences have taught me a lot about the student finances and have allowed me to develop my ideas on how to better serve the student body as Treasurer.

As your SGA Treasurer, I will promote **transparency** with SGA finances. This funding is directly from students, so all students should understand where that money is allocated. As Treasurer, I would strive to maintain transparency with the SGA finances by updating the student body regularly and listening to the students if they think it can be better spent other ways.

As Treasurer, I also plan to expand the **SGA services**, especially **club funding**. As a current Executive Board Member on the SGA Treasury, we have been focusing on how we can build upon our current SGA services. We have come up with lots of great ideas including **expanding club funding to give clubs access to more funds, adding residence hall printers, free recreation equipment rentals, implementing a recycling program, and creating a bi-annual large spring event similar to OctoberWest**. As Treasurer, I will bring these ideas to life to benefit the entire student body.

The Treasurer is one of the most important positions on the SGA council, which requires a lot of responsibility. Through my past experiences in student councils, the Student Treasury Board, and my time here at Embry-Riddle, I believe that I am qualified and ready to excel in this position.

Above, I have outlined some of my main initiatives that I would take on as Treasurer but, the SGA is designed to represent students and the best way to do that is to listen to them. If you have any questions, ideas, or any other comments about my ideas please feel free to email me or talk to me around campus. I would be more than excited to hear out new ideas that would help better the student body.

Thank you for your time and support, and make sure to vote on March 24th - March 26th!

Sincerely,

Dylan Astrup
