

Dylan Astrup *for SGA Treasurer*

My name is Dylan Astrup, I am a Sophomore studying Mechanical Engineering with a focus in Energy, and I would like to be your next SGA Treasurer! I am from Orange County, CA where I was born and raised. In my free time I enjoy cooking, golfing, hiking, and flying planes. I am currently an Executive Board member on the SGA Student Treasury and I have had previous experience as a student council Treasurer. I attended all the Budget Committee meetings in the fall where I learned about club funding and the SGA budget. These experiences have taught me a lot about the student finances and have allowed me to develop my ideas on how to better serve the student body as Treasurer.

One of my main initiatives as SGA Treasurer would be to promote **transparency** with SGA finances. If you don't already know, every year you pay an SGA fee which directly funds all SGA services including club funding, the safe ride program, and BCA events. This funding is directly from students, so all students should understand where that money is allocated. As treasurer, I would ensure that the SGA is transparent with the students on where their money is being spent by updating the student body regularly, and listen to the students if they think it can be better spent other ways.

As Treasurer, I would highly value **students' voices**. The SGA is designed to represent students and the best way to do that is to listen to the students. As SGA Treasurer, I promise to communicate with the student body and listen to students if they have ideas or comments on the SGA finances.

As Treasurer, I also plan to expand the **SGA services**, especially **club funding**. As a current Executive Board Member on the SGA Treasury, we have been focusing on how we can expand our SGA services. We have come up with a lot of great ideas including **expanding club funding, adding dorm printers, implementing a recycling program**, and much more. As Treasurer I hope to bring these ideas to life to benefit the entire student body.

Above, I have outlined some of my main initiatives that I would take on as Treasurer, but as I said before, the SGA is designed to represent students and the best way to do that is to listen to them. If you have any questions, ideas, or any other comments about my ideas please feel free to email me or talk to me around campus. I would be more than excited to hear out new ideas that would help better the student body.

The Treasurer is one of the most important positions on the SGA council, which requires a lot of responsibility. Through my past experiences in student councils, the Student Treasury Board, and my two years here at Embry-Riddle, I believe that I am qualified and ready to excel in this position.

Thank you, and make sure to vote on March 24th - March 26th!

Sincerely,

Dylan Astrup
